

Material Safety Data Sheet Inventory

What is a Material Safety Data Sheet (MSDS)?

A Material Safety Data Sheet (MSDS) is a document that contains information on the use, storage, handling and emergency procedures related to the hazards of the material. Occupational Safety and Health Act (OSHA) regulations require that employers maintain safety information about hazardous chemicals used or present in the workplace. Such knowledge begins with an MSDS.

How do I Obtain an MSDS?

Distributors are responsible for ensuring that their customers are provided a copy of the MSDS. Employers must have an MSDS for each hazardous chemical that they use.

List all products in the facility (an inventory) that require an MSDS to be maintained.

Company/Brand	Product Name	Product Number
1. Safety Kleen	Used Antifreeze	generic
2. Prestone ChemTrec	Antifreeze	AF777
3. Sierra ChemTrec	Propylene glycol Antifreeze	
4. Texaco Havoline	DEX Cool Antifreeze	CPS227994
5. All Brands	Gasoline	generic
6. All Brands	Diesel	generic
7. Safety Kleen	Used Motor Oil	generic
8. All Brands	Lead-acid Batteries	generic
9. R12	Refrigerant	generic
10. R134a	Refrigerant	generic
11. All Brands	Spray Paint	generic
12. WD-40	Penetrating Lube	Organic mixture
13. _____	_____	_____
14. _____	_____	_____
15. _____	_____	_____
16. _____	_____	_____
17. _____	_____	_____
18. _____	_____	_____
19. _____	_____	_____
