

Safety Data Sheet Inventory

What is a Safety Data Sheet (SDS)?

A Safety Data Sheet (SDS) is a document that contains information on the use, storage, handling and emergency procedures related to the hazards of a material or chemical in the workplace. Occupational Safety and Health Act (OSHA) regulations require that employers maintain safety information about hazardous chemicals used or present in the workplace. Such knowledge begins with an SDS.

How do I Obtain an SDS?

Distributors are responsible for ensuring that their customers are provided a copy of the SDS. Employers must have an SDS for each hazardous chemical that they use.

List all products in the facility (an inventory) that require an SDS to be maintained.

Company/Brand	Product Name	Product Number
1. Safety Kleen	Used Antifreeze	generic – SDS
2. Prestone	Antifreeze	AF2100 - SDS
3. Sierra	Propylene glycol Antifreeze	Mixture - SDS
4. Zerex	DEX Cool Antifreeze	614-790-3333 SDS
5. All Brands	Gasoline	generic - SDS
6. All Brands	Diesel	generic - SDS
7. Safety Kleen	Used Motor Oil	generic - SDS
8. All Brands	Lead-acid Batteries	generic - SDS
9. R12 National (NRL)	Refrigerant	generic - MSDS
10. R134a National (NRL)	Refrigerant	generic – SDS
11. Krylon	Spray Paint	generic - SDS
12. WD-40	Penetrating Lube	WD-40 SDS
13. _____	_____	_____
14. _____	_____	_____
15. _____	_____	_____
16. _____	_____	_____
17. _____	_____	_____
18. _____	_____	_____
